

Please do not pass laws or regulations that would lessen or change the laws that our state legislature has passed to make our lives more pleasant.

We rarely have to get up in the evening to answer the phone now that the Indiana law has passed, AND WE LOVE IT! Where we used to get 3 to 5 calls an evening, we now get zip.

I cannot understand why federal beauracracies never use any common sense. It is our state, we pass our laws. If they don't affect you, please keep your hands off of them.
